5. REPORTING

The Recipient shall submit activity reports and financial reports in accordance with the items below. The attached Guidelines for Reporting should be used.

5.1 Periods and time limits

Unless otherwise stipulated, the Recipient shall submit *partial reports* along with every new requisition for funds.

The *final reports* shall be submitted within three months of the finalisation of the activities. The Recipient shall also provide any reports the Donor requests. If satisfactory reports are not submitted, no further funds will be disbursed.

5.2 Activity report

The activity report shall give the Donor a basis for evaluation and for future decisions. It shall include the following:

- activities financed by the contribution; if the contribution only financed part of the activity, both the activity as a whole and the part for which the contribution was received shall be reported
- the actual results and goals achieved in relation to the results and goals outlined in the application or proposal; where these differ, reasons shall be given
- a presentation of any difficulties, shortcomings or deviations from agreed plans and a proposal for possible remedies
- a presentation of how the conclusions can or will be used in the future and any plans for further activities financed by contributions (in the final report only)

5.3 Financial report

The Donor may visit, audit or evaluate the activities it finances. The Donor may request copies of the accounts and other supporting documents related to the contribution. The Recipient shall be able to give a separate report on the activities financed by the contribution.

The activities shall be considered in relation to the budget accepted by the Donor at the time of the decision. Any discrepancies shall be reported and explanation provided. A qualified representative of the Recipient shall sign the reports.

August 2010

5.4 Audit report

An auditor shall verify the correctness of the information in the financial report. The observations of the auditor shall be given in a certificate.

6. OBLIGATION TO REPAY

Funds not used for financing the operations or activities shall be reported and repaid to the Donor. The repayment shall include any interest accrued on the disbursed amount and be made in connection with the final report.

The repayment shall be made to:

SWIFT: ESSESESS

The reference number of the Donor, which is the Government/Government Offices Decision number in the pledging letter, shall be included.

The Recipient shall repay the disbursed amount, wholly or in part, to the Donor in the following cases.

6.1 Funds not used within the prescribed period

Unused funds or funds which will not be used within the prescribed period shall be repaid. The Recipient may apply for an extension of the activity period in which to use the funds. The application shall be submitted as soon as the Recipient recognises that the activity period must be extended or before the end of the agreed period at the latest.

6.2 The Swedish part of the contribution becomes too large in proportion to other financing

When the Swedish contribution is only intended to cover part of the total cost of the activities, funds shall be repaid if the total cost decreases and the Swedish contribution consequently covers a larger share of the total cost than agreed. The repayment shall be in the amount necessary to restore the original proportion of the Swedish contribution, unless otherwise agreed.

August 2010

6.3 The contribution has been used for purposes other than those agreed

If the contribution has been used for purposes other than those agreed, the Recipient shall repay the disbursed amount, wholly or in part, to the Donor.

6.4 The Recipient does not submit reports

If the Recipient does not submit reports in accordance with item 5, the Donor may require that the Recipient repay the disbursed amount, wholly or in part. This will not be required if the Recipient submits the reports within one month of receiving a reminder.

6.5 The Recipient submits incorrect information

If the Recipient, by submitting incorrect information, is granted a contribution based on this information, the Recipient shall repay the disbursed amount, wholly or in part. The same applies if incorrect information from the Recipient results in a contribution that is too large.

If the Recipient was aware, or should have been aware, that incorrect information was submitted, the Recipient shall repay the entire disbursed amount. This applies whether whole or part of the contribution has been used.

The obligation to repay can be waived, wholly or in part, if incorrect information has had an insignificant effect on the contribution.

If the Recipient was unaware of incorrect information being submitted, the obligation to repay only applies to unused funds. The obligation to repay does not apply to funds needed to cover future compulsory costs if the Recipient has agreed to these costs while unaware that the information was incorrect.

7. APPLICATION FOR POSTPONEMENT

The Recipient shall without reminder, comply with the repayment dates in the pledging letter and in the Standard Conditions.

If the Recipient has been asked to repay the contribution, wholly or in part, the repayment shall be made in accordance with the conditions laid down by the Donor.

August 2010

If the Recipient is not able to repay within the stipulated period of time, the Donor can upon application, agree to a postponement. The Donor must receive the application for postponement by the due date of the repayment at the latest.

The Recipient may apply for a waiver of the repayment if the request for repayment is considered unjustified.
