TABLE TO ANNEX V**System of export levy on fish products
which Iceland may retain**

Icelandic Law No. 4 of 28 February 1966 as amended by Laws Nos. 79 of 31 December 1968, 73 of 1 June 1970, 4 of 30 March 1971 and 17 of 4 May 1972, concerning export levy on fish products

Article 1

A levy shall be applied to exports of Icelandic fish products specified in this Law.

Fish caught by fishing vessels registered in Iceland shall be considered as Icelandic products even if such fish is caught outside Icelandic fishing limits and not processed ashore.

Article 2

In accordance with this Law, the export levy on fish products shall be applied as follows:

1. A levy of 2,300 Icelandic Crowns per ton shall be applied to exports of frozen fish fillets, frozen fish roes, salted whitefish, salted fish fillets, belly of salted cod, salted fish roes not elsewhere specified, salted fish bits, salted and frozen fish tongues, stockfish, dried fish heads, shellfish and preserved fish products in hermetic containers.

Should the levy applied under this Article exceed 4-5% of the fob value of the fish products in question, the Ministry of Fisheries may decide to abolish the part of the levy which is in excess thereof.

2. A levy of 3% of the fob value shall be applied to exports of whole frozen fish, frozen fish waste, frozen Norway lobster, frozen shrimp, frozen capelin, capelin meal, capelin oil and hydrogenated oils and fats from fish or marine mammals.

3. A levy of 5% of the fob value shall be applied to exports of whale products other than preserved in hermetic containers.

4. A levy of 6% of the fob value shall be applied to exports of fish meal, redfish meal, Norway lobster meal, shrimp meal, liver meal, codliver oil, redfish oil, whole frozen herring, frozen herring fillets, salted herring, salted herring fillets, salted lumpfish roes and other fish products not specified in this Article.

500 Icelandic Crowns per 100 kg of contents may be deducted from the fob value of salted herring and salted lumpfish roes to cover packing costs.

5. A levy of 7% of the fob value shall be applied to exports of fresh and chilled fish.

The Ministry of Fisheries may, however, decide that the levy on fresh or chilled herring shall be equal to that which would have been applicable had the herring been processed in Iceland by the same method as is to be used abroad (see points 4 and 6 of this Article).

6. A levy of 8% of the fob value shall be applied to exports of herring meal, herring solubles and herring oil.

7. Seal products are not subject to the export levy.

For the purposes of point 1, uncooked preserved products in hermetic containers shall mean uncooked preserved products ready for consumption in hermetic containers of 10 kg net or less. Fully processed uncooked products in larger containers shall also be regarded as uncooked preserved products in hermetic containers if the exporter supplies proof that the value of the unprocessed product is less than one-third of the export value of the exported products.

Where Icelandic vessels sell, in foreign ports, fresh or processed fish products caught by their own or other vessels and subject to this levy, the said levy shall be applied on the gross value of such sales, less customs duties and other unloading and sales charges, in accordance with rules issued by the Ministry of Fisheries.

Article 3

The Treasury shall collect the export levy in accordance with the provision of Article 2, and the receipts shall be distributed as follows:

- | | | |
|----|---|--------|
| 1. | For payments of insurance premiums for fishing vessels in accordance with rules issued by the Ministry of Fisheries | 82-0 % |
| 2. | To the Fisheries Loan Fund of Iceland | 11-4 % |
| 3. | To the Fisheries Fund | 3-1 % |
| 4. | To the building of vessels for ocean and fishery research | 1-8 % |
| 5. | For the building of Fisheries Research Institutes | 0-7 % |
| 6. | To the Federation of Icelandic Fishing Vessel Owners | 0-5 % |
| 7. | To seamen's unions in accordance with rules issued by the Ministry of Fisheries | 0-5 % |

Payment of the insurance premiums for fishing vessels referred to in item 1 may be subject to the condition that the insurance company concerned be a member of the Underwriters' Reinsurance Union and be required to apply certain rules concerning calculation of premium rates, insurance terms and hull values.

Whalers may be exempted from these conditions and are then entitled to reimbursement of their contribution to the Fishing Vessels' Insurance Fund instead of the insurance premiums.

Article 4

The levy provided for in Article 2, points 2, 3 and 4, shall be applied to the selling price of the products, including packing, fob vessels in the first port of landing. The value of the products sold cif or under other terms, shall be adjusted to the fob valued in accordance with rules issued by the Ministry of Trade.

Where unsold products are exported the export levy provided for in Article 2, points 2, 3 and 4 shall be calculated on the basis of the minimum export price stipulated in the export licence.

If the exporter supplies proof, within 6 months of the date shown on the bill of lading, that the price of an unsold fish product, as determined by the competent authority, is higher than the actual selling price, the Ministry of Finance shall refund the difference, subject to confirmation by the Ministry of Trade that sale at the lower price has been approved.

The levy provided for in Article 2, point 1 shall be applied to the net weight of the sold product, which must be indicated in the export documents.

Article 5

The export levy falls due as soon as a ship has been cleared for sailing or before landing, should customs clearance not be required. The Ministry of Fisheries may, however, authorize the shipper to pay the dues when he receives the foreign currency, provided that the transaction is carried out through an Icelandic bank and that he gives the Customs Authorities a promissory note, representing the exchange value of the sum due.

Article 6

Shippers of products covered by the provisions of this Law shall submit to the competent authority before a ship is cleared for sailing or before landing a duplicate or a certified copy of the bill of lading or other shipping documents, an export declaration, an invoice and, if required, a certificate of inspection, together with an export licence. If no export document has been issued, the shipper shall make a declaration regarding the quantity being shipped.

The provisions of this Article concerning the shipper shall also apply to the master of the ship, in the event of absence of or negligence by the shipper, and to the shipbrokers.

The levy shall be applied on the basis of the information contained in the documents mentioned in this Article.

Article 7

The ship and its cargo shall constitute surety for payment of the export levy.

Article 8

The competent authorities shall draw up a statement of export levies collected under the provisions of this Law in accordance with the instructions given by the Ministry of Finance and the rules relating to public accounts.

Article 9

Any infringement of this Law is liable to a fine unless another law provides for a stricter penalty. Moreover, any shipper, ship's master or shipbroker found guilty of giving incorrect information about a ship's cargo shall pay triple the export levy in respect of which the fraud was attempted.

The fines shall be paid to the Treasury.

Should the competent authorities suspect that the documents referred to in Article 6 are incorrect, they shall inspect the ship's cargo before shipment or landing, or shall by some other means obtain the documents necessary for this purpose.

Article 10

Infringements of this Law shall be tried under the provisions of the law governing criminal procedure.

Article 11

The Government shall be authorized to apply levies on the net weight of the products specified in Article 2, point 1 of this Law in accordance with Article 9 of Law No. 77 of 28 April 1962 on the Fisheries Catch Equalization Fund and Article 9 Act No. 42 of 9 June 1960 on Fresh Fish Inspection.

Article 12

The Ministry of Fisheries may issue a regulation laying down further directives concerning the application of this Law.

- (b) "Technical regulations" means technical specifications, including the relevant administrative provisions, the observance of which is compulsory, de jure or de facto, in the case of marketing or use in a Contracting Party or in a major part of it, except those laid down by local authorities;
- (c) "Draft technical regulation" means the text of a technical specification including administrative provisions, formulated with the aim of enacting it or of ultimately having it enacted as a technical regulation, the text being at a stage of preparation at which substantial amendments can still be made;

Article 2

1. The notification shall:

- (a) include the full text of the draft technical regulation both in the original language and in a full translation or a summary into English;
- (b) indicate whether the draft technical regulation is identical with a technical specification in the subject matter concerned, worked out by an international or regional body, or whether it deviates from such specifications; when deviating

from such specifications the reasons for the deviations shall be given;

- (c) state the name and address of the national authority competent to give further information on the regulation;
- (d) include the envisaged date of entry into force.

2. Where a draft technical regulation merely transposes the full text of an international or European standard, information regarding the relevant standard shall suffice.

Article 3

The EFTA States and Romania respectively may ask for further information on a draft technical regulation notified in accordance with this procedure.

Article 4

1. The exchange of notifications between the EFTA States and Romania shall take place through the EFTA Secretariat.
2. Through the EFTA Secretariat, the EFTA States and Romania may make comments upon the drafts communicated.

Article 7

The standstill period of three months shall however not apply when for urgent reasons relating to the protection of public health or safety, the protection of health and life of animals or plants, the competent authorities are obliged to prepare technical regulations in a very short period of time in order to enact or introduce them immediately without any consultations being possible. The reasons which warrant the urgency of the measures taken shall be given.

Procedur för notifiering av förslag till tekniska föreskrifter

Artikel 1

I denna bilaga förstås med

- a) "teknisk specifikation" : en specifikation som förekommer i ett dokument som fastställer vilka karakteristika som krävs för en vara, såsom kvalitetsnivå, prestanda, säkerhet eller dimensioner, inklusive de krav som skall tillämpas på varan vad beträffar terminologi, symboler, provning och provningsmetoder, förpackning, märkning och etikettering,
- b) "teknisk föreskrift" : tekniska specifikationer, inbegripet tillämpningen av administrativa bestämmelser som är rättsligt eller i praktiken tvingande vid marknadsföring eller användning i en avtalslutande part eller i en betydande del av en sådan stat, med undantag för bestämmelser som fastställts av lokala myndigheter,
- c) "förslag till teknisk föreskrift" : texten till en teknisk specifikation inklusive administrativa bestämmelser, som utarbetats i syfte att anta eller att slutligen låta anta som teknisk föreskrift och som är på ett sådant förberedande stadium att ändringar ännu kan göras,
- d) "vara" : alla varor som täcks av detta avtal.

Artikel 2

1. Notifikationen skall

- a) omfatta den fullständiga texten i förslaget till teknisk föreskrift både på originalspråk och i fullständig översättning eller med ett sammandrag på engelska,
- b) ange om förslaget till teknisk föreskrift är identiskt med någon teknisk specifikation som i ifrågavarande ämne utarbetats av ett internationellt eller regionalt organ, eller om det avviker från sådana specifikationer; när det avviker från dessa, skall orsaken till avvikelser anges,
- c) ange namn och adress på den behöriga nationella myndighet som kan ge närmare information om föreskriften,
- d) omfatta beräknad dag för ikraftträdandet.

2. När ett förslag till teknisk föreskrift endast överför den fullständiga texten i en internationell eller europeisk standard, skall information om den relevanta standarden vara tillräcklig.

Artikel 3

EFTA-staterna och Rumänien får begära ytterligare information om ett förslag till teknisk föreskrift som notifierats i enlighet med denna procedur.

Artikel 4

1. Utbyte av notifikationer mellan EFTA-staterna och Rumänien skall ske via EFTA-sekretariatet.

2. Via EFTA-sekretariatet får EFTA-staterna och Rumänien lämna kommentarer till de överlämnade förslagen.

Artikel 5

Fristen för kommentarer till notifikationerna skall vara minst tre månader från den dag EFTA-sekretariatet mottog texten till förslaget. Under denna period får förslaget till teknisk föreskrift inte antas.

Artikel 6

Ytterligare en notifikation skall ange i vilken utsträckning det varit möjligt att ta hänsyn till mottagna kommentarer från EFTA-staterna och Rumänien, ändringar i sak som gjorts i förhållande till det notifierade förslaget samt dagen för föreskriftens ikraftträdande.

Artikel 7

Status quo-perioden på tre månader skall emellertid inte vara tillämplig, när de behöriga myndigheterna av tvingande skäl, som rör skyddet av allmänhetens hälsa eller säkerhet och skyddet av djurs eller växters liv och hälsa, skyndsamt måste utarbeta tekniska föreskrifter i syfte att anta och införa dem omedelbart utan att samråd blir möjligt. De skäl som motiverat det brådskande agerandet skall anges.

Artikel 8

EFTA-staterna och Rumänien skall, inom ramen för detta avtal, hålla regelbundna konsultationer för att garantera att proceduren fungerar tillfredsställande.

Immateriell äganderätt

Artikel 1

Definition och omfattning av skyddet

”Skydd för immateriell äganderätt” skall i synnerhet inbegripa skydd för upphovsrätt och närstående rättigheter, varumärken, geografiska ursprungs-beteckningar, mönster, patent, kretsmönster i halvledarprodukter samt skydd för företagshemligheter.

Artikel 2

Materiella bestämmelser enligt internationella konventioner.

1) I enlighet med artikel 17 andra stycket är de avtalsslutande staterna överens om att uppfylla de materiella bestämmelserna i följande multilaterala överenskommelser:

- Pariskonventionen om industriellt rättskydd (Stockholmstexten, 1967),
- Bernkonventionen för skydd av litterära och konstnärliga verk (Paristexten, 1971),
- Den internationella konventionen om skydd för utövande konstnärer, framställare av fonogram samt radioföretag (Romkonventionen)

2. De avtalsslutande staterna är överens om att, på begäran av en part, genast hålla expertsamråd i frågor som hör till angivna eller framtida internationella konventioner om harmonisering, handhavande och hävdande av den immateriella äganderätten och i frågor om verksamheten i internationella organisationer, som det Allmänna tull- och handelsavtalet (GATT) och Världsorganisationen för den intellektuella äganderätten (WIPO) samt i frågor om de avtalsslutande staternas förhållande till tredje land rörande den immateriella äganderätten.

Artikel 3

Ytterligare materiella bestämmelser

De avtalsslutande staterna skall i sina lagstiftningar säkerställa åtminstone följande:

- ett fullgott och effektivt skydd för upphovsrätten, däri inbegripet datorprogram och databaser samt närstående rättigheter,
- ett fullgott och effektivt skydd för varumärken för varor och tjänster, i synnerhet för internationellt välkända varumärken,
- fullgoda och effektiva medel för att skydda geografiska ursprungs-beteckningar, inbegripet geografiska ursprungskännetecken, med avseende på alla varor, åtminstone i den utsträckning som deras användning är vilseledande för allmänheten,
- ett fullgott och effektivt skydd för mönster särskilt genom att föreskriva en skyddsperiod om fem år räknat från dagen för ansökan om skydd med en möjlighet till förnyelse för ytterligare två på varandra följande femårsperioder,

- ett fullgott och effektivt skydd för patent på en nivå jämförbar med den förhärskande inom det Europeiska Frihandelsområdet,
- att tvångslicenser av patent är icke-exklusiva, icke-diskriminerande, underkastade rätt till ersättning i proportion till marknadsvärdet för licens av patentet samt kan bli föremål för prövning av domstol. Omfattningen och varaktigheten av en sådan licens skall vara begränsad till det syfte för vilket den beviljats. Tvångslicens på den grund att den uppfinning som omfattas av patentet inte utövas skall bara utnyttjas i den omfattning som är nödvändig för att tillgodose den lokala marknaden på rimliga kommersiella villkor.
- ett fullgott och effektivt skydd för kretsmönster i halvledarprodukter,
- ett fullgott och effektivt skydd för företagshemligheter.

Artikel 4

Förvärv och vidmakthållande av immateriella rättigheter

Förfarandena skall inte vara onödigt komplicerade eller kostsamma, eller vara förenade med orimliga tidsgränser eller obefogade dröjsmål.

Sådana bestämmelser skall i synnerhet innehålla förbudsförelägganden, rätt till fullgod ersättning för skada som rättighetshavaren lidit, samt interimistiska åtgärder, inbegripet möjligheten att vidta åtgärden utan att motparten har beretts tillfälle att yttra sig.

ANNEX XII

ON THE INTERPRETATION OF ARTICLE 19

The EFTA States and Romania agree that the application of Article 19 shall be guided by the following criteria:

- (a) Only those measures can be classified as State aid which result in a net transfer of funds from State sources to the recipient through direct subsidies or which result in tax revenues foregone through tax concession; aid granted under schemes which are fully paid for by the beneficiaries are not State aid in the sense of Article 19; when assessing effects of State aid, the cumulative effects of all types of aid measures awarded to recipients are to be taken into consideration.
- (b) The following measures, in general, fall outside the scope of Article 19:
 - (i) credits and loans from State sources or agencies, if the interest and capital repayments are in accordance with current market conditions;
 - (ii) guarantees given by States or State agencies, if the premiums cover the long-term cost of the scheme;
 - (iii) equity injections by States or State agencies if the rate of return on such investments can reasonably be expected to be at least equal to the cost of State borrowing;
 - (iv) tax measures including social security charges that are part of the general national income norm for tax purposes, available to all enterprises, and uniformly applied in a country.
- (c) The following measures are examples of types of aid normally consistent with the provisions of Article 19:
 - (i) aid to research, development and innovation, provided it is clearly intended for the stimulation of such activities and that such activities are at a pre-competitive level; the pre-competitive level is understood to include applied research and development up

to and including the development of a first prototype; such aid may be awarded up to a rate of 50 % of project costs or at differentiated tax rates of equivalent effect; basic research may be aided to a greater extent; the closer to the market place a project is, the lower the degree of subsidizations should be;

- (ii) aid given to sectors with problems of overcapacity to rationalize the structure of industry by ensuring an orderly downscaling of production and employment; such measures should strictly be limited in duration and be accompanied by an adjustment programme; when evaluating problems of overcapacity the international situation as a whole and not merely in the country in question is to be taken into account;
- (iii) general aid to export promotion such as national weeks, store promotion, industrial fairs, provided that such aid is not company-specific;
- (iv) regional development aid to the extent that it does not interfere with conditions of fair competition; its purpose must be to put industries in regional development areas on an equal economic footing with industries in other parts of the country and not to increase capacity in sectors already suffering from problems of overcapacity; the definition of regional development areas, including areas in industrial decline, lies within the sole competence of the State Parties to this Agreement, which may be requested to furnish statistics detailing the reasons for the designation of such areas;
- (v) the aid in form of general public services to trade and industry on terms and conditions not favouring certain sectors and enterprises;
- (vi) general aid for the creation of new employment opportunities provided such jobs are not in sectors already suffering from overcapacity;
- (vii) environmental aid, under the general principle that the polluter-pays-principle is observed; investment specifically designated to reduce pollution may be aided

up to a rate of 25 % or at differentiated tax rates of equivalent effect; recognizing the existence of different qualities of legislation or standards in other countries and their potential impact on trade and competition, the degree of subsidizations for specific industries shall be kept under constant review;

(viii) aid to small and medium-sized enterprises if intended to offset disadvantages directly linked to the size of the firm in question, such enterprises being understood as employing not more than 100 people and having an annual turnover of less than 10 million ECUs.

(d) The following measures are examples of types of aid normally not consistent with Article 19:

- (i) aid to set against operating losses of enterprises, either directly or through the foregoing of payments due to public authorities;
- (ii) the injection of equity capital in firms if it has the same effect as to set aid against operating losses;
- (iii) aid to production in problem sectors suffering from structural overcapacity or to enterprises in difficulties if not accompanied by an adjustment programme and strictly limited in duration;
- (iv) aid given as a rescue measure to specific firms if not given merely to provide time for the development of long-term solutions and to avoid acute social problems;
- (v) aid measures, including indirect taxes, that are applied in such a way as to discriminate in favour of domestically-produced goods and against like goods produced in another State Party to this Agreement;
- (vi) the forms of aid to exports of goods to other State Parties to this Agreement as described in the Appendix.

* * * * *

som avses i artikel 19, punkt 2

Om tillämpning av artikel 19

EFTA-staterna och Rumänien är överens om att man vid tillämpningen av artikel 19 skall vägledas av följande kriterier:

- a) Som statsstöd kan endast klassas åtgärder som resulterar i en nettoöverföring av offentliga medel till mottagaren genom direkta subventioner eller genom att det offentliga avstår från skatteintäkter genom skatteförmåner; stöd som ges inom program som helt betalas av mottagarna är inte statsstöd enligt artikel 19; när verkningarna av statsstöd bedöms skall hänsyn tas till de kumulativa effekterna av alla slags stödåtgärder till mottagarna.
- b) Följande åtgärder faller i allmänhet utanför det område som täcks i artikel 19:
 - i) krediter och lån från statliga källor eller organ, om ränta och amorteringar överensstämmer med rådande villkor på marknaden,
 - ii) garantier som ges av staten eller statliga organ om premierna täcker de långsiktiga kostnaderna för programmet,
 - iii) kapitaltillskott från stater eller statliga organ om avkastningen på sådana investeringar rimligen kan väntas motsvara minst statens lånekostnader,
 - iv) skatteåtgärder inklusive socialförsäkringsavgifter som är en del av den allmänna nationella inkomstnormen för skatteändamål, tillgängliga för alla företag, och tillämpade på ett enhetligt sätt i ett land.
- c) Följande åtgärder är exempel på stödformer som normalt är förenliga med bestämmelserna i artikel 19:
 - i) stöd till forskning, utveckling och förnyelse, under förutsättning att det är klart avsett att stimulera sådana verksamheter och att dessa befinner sig på utvecklingsstadiet; med utvecklingsstadiet avses tillämpad forskning och utveckling upp till och med framställningen av en första prototyp; sådant stöd får ges till ett belopp av högst 50 procent av projektkostnaderna eller genom differentierade skattesatser med motsvarande verkan; grundforskning får ges stöd i större utsträckning; ju närmare marknaden ett projekt befinner sig desto lägre måste stödnivån vara,
 - ii) stöd till sektorer med överkapacitetsproblem för strukturrationalisering genom att säkra en nedskärning av produktion och sysselsättning i rimlig takt; sådana åtgärder skall begränsas strikt i tiden och åtföljas av ett anpassningsprogram; när överkapacitetsproblemet bedöms skall hänsyn tas till det internationella läget i dess helhet och inte bara till läget i landet i fråga,
 - iii) generellt stöd till exportfrämjande, som t ex nationella veckor, marknadsföring, industrimässor, under förutsättning att sådant stöd inte är företagspecifikt,
 - iv) regionalt utvecklingsstöd i den utsträckning det inte stör sunda

- konkurrensvillkor; dess syfte måste vara att ge industrier inom regionala utvecklingsområden likartade villkor som industrier i andra delar av landet och inte att öka kapaciteten inom sektorer som redan har problem med överkapacitet; endast de avtalslutande staterna har befogenhet att ange gränserna för regionala utvecklingsområden inklusive industriellt tillbakagående områden; de kan anmodas att lämna statistik som specificerar enligt vilka kriterier sådana utvecklingsområden har avgränsats,
- v) stöd i form av allmän offentlig service till handel och industri på villkor som inte gynnar vissa branscher och företag,
 - vi) allmänt stöd för att skapa nya arbetstillfällen under förutsättning att dessa inte tillhör branscher inom vilka det råder överkapacitet,
 - vii) miljöstöd som utgår från den allmänna principen att den som är ansvarig för miljöförstöring skall betala; investeringar som är specifikt avsedda att reducera miljöförorening kan ges stöd till ett belopp av högst 25 procent eller genom differentierade skattesatser med motsvarande verkan; med tanke på att lagstiftning och standarder har skiftande kvalitet i andra länder och att de har en potentiell inverkan på handel och konkurrens skall graden av stöd till enskilda industrier löpande ses över,
 - viii) stöd till små och medelstora företag som syftar till att motverka nackdelar som är en direkt följd av storleken på företaget i fråga; här avses företag som sysselsätter högst 100 personer och med en årlig omsättning på mindre än 10 miljoner ecu.
- d) Följande åtgärder är exempel på stödformer som normalt inte är förenliga med artikel 19:
- i) stöd för att täcka driftunderskott i företag, antingen direkt eller genom att de befrias från betalningar till offentliga myndigheter som åligger dem,
 - ii) kapitaltillskott till företag om det har samma effekt som stöd för att täcka driftunderskott,
 - iii) stöd till produktion inom problembanscher där strukturell överkapacitet råder eller till företag i svårigheter om stödet inte åtföljs av ett anpassningsprogram och har en strikt begränsad varaktighet,
 - iv) stöd för att undsätta enskilda företag om det inte ges enbart för att vinna tid för att utveckla långsiktiga lösningar och undvika akuta sociala problem,
 - v) stödåtgärder, inklusive indirekta skatter, som tillämpas på sådant sätt att de diskriminerar varor som producerats hos annan avtalslutande stat till förmån för inhemskt tillverkade varor,
 - vi) olika former av stöd till export av varor till andra avtalslutande stater enligt vad som anges i appendix.

APPENDIX**ILLUSTRATIVE LIST OF FORMS OF EXPORT AID REFERRED TO IN
ANNEX XII (d) (vi)**

- (a) Currency retention schemes or any similar practices which involve a bonus on exports or re-exports.
- (b) The provision by governments of direct subsidies to exporters.
- (c) The remission, calculated in relation to exports, of direct taxes or social welfare charges on industrial or commercial enterprises.
- (d) The exemption, in respect of exported goods, from charges or taxes, other than charges in connection with importation or indirect taxes levied at one or several stages on the same goods if sold for internal consumption, or the payment, in respect of exported goods, of amounts exceeding those effectively levied at one or several stages on these goods in the form of indirect taxes or of charges in connection with importation or in both forms.
- (e) In respect of deliveries by governments or governmental agencies of imported raw materials for export business on different terms than for domestic business, the charging of prices below world prices.
- (f) In respect of government export credit guarantees, the charging of premiums at rates which are manifestly inadequate to cover the long-term operating costs and losses of the credit insurance institutions.
- (g) The grant by governments (or special institutions controlled by governments) of export credits at rates below those which they have to pay in order to obtain the funds so employed.
- (h) The government bearing all or part of the costs incurred by exporters in obtaining credit.

Illustrativ lista över former av exportstöd angivna i bilaga XII (d) (vi)

- a) System, varigenom exportör får förfoga över del av intjänad valuta, eller liknande förfarande innebärande premiering av export eller reexport.
- b) Direkta statliga subventioner till exportörer.
- c) Åtgärder, varigenom industri- eller handelsföretag befrias från direkta skatter eller sociala avgifter i förhållande till verkställd export.
- d) Undantag, vid export av varor, från avgifter eller skatter andra än avgifter i samband med import eller indirekta skatter som erläggs i ett eller flera led för samma slags varor vid försäljning för inhemsk förbrukning eller utbetalning, vid export av varor, av belopp som överstiger vad som faktiskt erlagts i ett eller flera led på dessa varor i form av indirekta skatter och/eller av avgifter i samband med import.
- e) Debitering av lägre priser än världsmarknadspriserna i fall då statliga myndigheter eller organ vid sina leveranser av importerade råvaror tillämpar olika villkor beroende på om leveranserna avser exportändamål eller inhemsk förbrukning.
- f) Tillämpning av sådana premiesatser vid statlig exportkreditgarantivning, som är uppenbart otillräckliga för att täcka kreditförsäkringinstitutens kostnader och förluster på längre sikt.
- g) Beviljande genom statliga myndigheter (eller särskilda institutioner under statlig kontroll) av exportkrediter till lägre ränta än myndigheterna (eller institutionerna) själva får erlägga för att anskaffa motsvarande kapital.
- h) Åtgärder innebärande att staten helt eller delvis svarar för kostnader, som exportörer ådrar sig i samband med anskaffande av krediter.

ANNEX XIIITRANSPARENCY OF STATE AID MEASURES

Transparency measures provided for in Article 19, paragraph 4, of the Agreement, shall, inter alia, comprise:

- Annual reporting on the total amount and distribution of aid;
- notification of new aid schemes, if possible, in advance of implementation, and not later than 30 days after the date of implementation, and

- en skyldighet att på begäran lämna information om befintliga program och särskilda individuella fall.

Gemensamma kommittén skall inom ett år efter det att avtalet trätt i kraft anta de nödvändiga bestämmelserna för genomförande av insyn i fråga om statsstöd.

**JOINT DECLARATION BY THE EFTA STATES AND
ROMANIA CONCERNING
THE EXTENSION OF THE RULES OF ORIGIN**

The EFTA States and Romania agree to explore the possibilities to further extend and improve the rules of origin including cumulation in order to expand and promote production and trade within Europe.

GEMENSAM DEKLARATION AV EFTA-STATERNA
OCH RUMÄNIEN ANGÅENDE UTVIDGNINGEN AV
URSPRUNGSREGLERNA

EFTA-staterna och Rumänien är överens om att undersöka möjligheterna att ytterligare utvidga och förbättra ursprungsreglerna inbegripet kumulation i syfte att utvidga och främja tillverkning och handel inom Europa.

RECORD OF UNDERSTANDINGS
RELATING TO THE AGREEMENT BETWEEN
THE EFTA STATES AND ROMANIA

SÖ 1993:9

1. The EFTA States and Romania recognize that there is a certain parallelism between the levels of concessions regarding tariffs, quantitative restrictions, charges and measures having equivalent effect at the entry into force of the Free Trade Agreement EFTA States-Romania and the Europe Agreement EC-Romania. The EFTA States and Romania further recognize that this parallelism should basically be maintained during the whole transitional period. The possibility of applying such parallelism to concessions exchanged under special conditions will be considered in the Joint Committee.

2. If the rates of basic duties resulting from Article 5, paragraph 1, are different than those resulting from Article 8, paragraph 3, of the Europe Agreement EC-Romania, Romania shall apply the latter rates under the EFTA-Romania Agreement.

3. If, during a period equal to the derogation for subsidies under paragraph 3 of Article 19 and given the particular sensitivities of the steel market, imports of specific steel products originating in one State Party to this Agreement cause or threaten to cause serious injury to domestic producers of like products or serious disturbance to the steel market of another State Party, both States Parties shall immediately enter into consultations to find an appropriate solution. Pending such a solution and notwithstanding other provisions of the Agreement and in particular Articles 21 and 25, when exceptional circumstances require immediate action, the importing State Party may adopt forthwith quantitative or other solutions strictly necessary to deal with the situation, in accordance with its international and multilateral obligations.

4. The total and partial suspensions of customs duties established on a temporary basis by Romanian Government Decision No 812/1991 are valid only until 31 December 1992.

5. The expression "rate of duty applied" means the duty stipulated in the customs tariff (autonomous, conventional, as well as suspended duty and any "permanent" tariff quota stipulated therein). This expression does not cover temporary suspensions and temporary tariff quotas.

6. With reference to paragraph 3 of Article 22, if there is a disagreement with regard to the actual value of imports of industrial products, international trade statistics such as those of ECE, GATT and OECD will serve as a basis.

7. According to Article 3 of Protocol A, Romania may introduce a system of price compensation measures. The EFTA States agree to provide technical assistance in the elaboration and implementation of such a system.

8. The EFTA States and Romania agree to closely co-ordinate their efforts in training those concerned with the use of the simplified procedure laid down in Protocol B with regard to the issue, control and verification of evidence of origin in order to enable them to be authorized to use this procedure. The simplified procedure shall be used in a restricted way and its implementation be subject to deliberations in the Sub-Committee on origin and customs matters.

9. (a) The EFTA States and Romania agree that the provisions of Article 23 of Protocol B shall not apply until 1 January 1994. This derogation may be prolonged by the Joint Committee taking into account the practice applied between Romania and the European Communities.
- (b) If it is established that, because of the effect of the derogation from Article 23, a product is imported into the territory of a State Party to this Agreement in such increased quantities or under conditions which cause, or threaten to cause, serious injury to producers of similar or directly competitive goods in the State Party concerned, the provisions of Article 23 will be reintroduced in respect of such a product.
- (c) As to the procedure for the application of the safeguard measures, the provisions of Article 25 of the Agreement shall apply *mutatis mutandis*, in particular paragraphs 3(b) and 6 of that Article.

10. In order not to hamper the introduction of efficient ADP systems in customs administrations, the EFTA States and Romania agree on the following interpretation of the word "submission" in Articles 8 and 12 of Protocol B to the Agreement: In cases where import declarations are transmitted electronically to the customs authorities of the importing State, it rests with these authorities to decide, within the framework and according to the provisions of the customs legislation applicable in the importing State, when and to what extent the documents constituting evidence of originating status shall actually be submitted.

11. A company from the EFTA States and a company from Romania respectively shall, for the purpose of the Agreement, mean a company or a firm set up in accordance with the laws of a Member State of the European Free Trade Association or of Romania respectively.

12. For the purpose of this Agreement, a national means, in the case of Romania, a natural person who is a citizen of Romania.

13. For the purpose of interpreting Article 19, paragraph 3, the States Parties to this Agreement agree that the term "higher intensity" refers to the level of aid granted by way of measures contained in Annex XII, paragraph (c), and that the application of normally inconsistent measures under paragraph (d) could be temporarily justified by the restructuring of Romania's economy, provided that these practices are compatible with the rules on state aid in the Agreement establishing an Association between Romania and the European Community, as implemented by the Parties to that Agreement.

14. The EFTA States and Romania agree to hold consultations in the Joint Committee with a view to consider the possibilities of complementing the criteria set out in Annexes XII and XIII to Article 19 by the criteria arising from the Agreement between the EFTA States and the European Economic Community on the establishment of a European Economic Area, after that Agreement will have entered into force.

15. The EFTA States and Romania consider that an arbitration procedure could be envisaged for disputes which cannot be settled through consultations between the States Parties concerned or in the Joint Committee. Such a possibility, for instance regarding Article 18, will be further examined in the Joint Committee.

16. The States Parties to this Agreement shall make the necessary efforts to complete the ratification process of this Agreement, if possible, within one year.

Samförståndsprotokoll avseende avtalet mellan EFTA-staterna och Rumänien

1. EFTA-staterna och Rumänien erkänner att det vid ikraftträdandet av frihandelsavtalet EFTA-staterna-Rumänien och Europaavtalet EG-Rumänien föreligger en viss parallellitet mellan avtalen i vad avser koncessionsnivåerna för tullar, kvantitativa restriktioner, avgifter och åtgärder med motsvarande verkan. EFTA-staterna och Rumänien erkänner vidare att denna parallellitet i stort sett bör bibehållas under hela övergångsperioden. Möjligheten att tillämpa en sådan parallellitet på koncessioner som utväxlats under speciella omständigheter kommer att bli föremål för överväganden i Gemensamma kommittén.
2. Om bastullsatserna som följer av artikel 5, punkt 1, skiljer sig från bastullsatserna som följer av artikel 8, punkt 3, i Europaavtalet EG-Rumänien, skall Rumänien tillämpa sistnämnda tullsats vid tillämpningen av avtalet EFTA-Rumänien.
3. Om import av vissa stålprodukter med ursprung i någon avtalslutande stat, under en period motsvarande den som avses i punkt 3 i artikel 19 om avvikelser i fråga om statsstöd samt med hänsyn till de särskilt känsliga förhållandena på stålmarknaden, förorsakar, eller hotar att förorsaka, allvarlig skada för inhemska tillverkare av liknande produkter eller allvarliga störningar av någon annan avtalslutande stats stålmarknad, skall båda parter genast inleda konsultationer för att finna en lämplig lösning. I avvaktan på en sådan lösning och oaktat andra bestämmelser i avtalet, särskilt artiklarna 21 och 25, får den importerande staten inom ramen för sina internationella och multilaterala åtaganden, när exceptionella omständigheter kräver omedelbart handlande, omgående införa kvantitativa eller andra lösningar som är absolut nödvändiga för att hantera situationen.
4. De fullständiga eller delvisa suspenderingarna av tullar, som infördes på tillfällig basis genom den rumänska regeringens beslut nr 812/1991, gäller endast till och med den 31 december 1992.
5. Med uttrycket "tillämpad tullsats" avses den tull som föreskrivs i tulltaxan (autonom, avtalsbunden och suspenderad tull samt "permanent" tullkontingenter som framgår därav). Detta uttryck täcker inte tillfälliga suspensioner och tullkontingenter.
6. Med hänvisning till punkt 3 i artikel 22 skall, om oenighet råder beträffande det faktiska värdet av importerade industrivaror, internationell handelsstatistik sådan som ECE:s, GATT:s och OECD:s statistik tjäna som grundval.
7. Enligt artikel 3 i protokoll A får Rumänien införa ett system med prisutjämningsåtgärder. EFTA-staterna samtycker till att bidra med tekniskt bistånd vid utarbetandet och genomförandet av ett sådant system.
8. EFTA-staterna och Rumänien är överens om att nära samordna sina ansträngningar i att utbilda de personer som skall använda det förenklade förfarande som återfinns i protokoll B angående utfärdande, kontroll och

granskning av ursprungsbevis, så att de kan bli bemyndigade att utnyttja detta förfarande. Det förenklade förfarandet skall användas i begränsad omfattning och dess tillämpning skall bli föremål för överläggningar i underkommittén för ursprungs- och tullfrågor.

9. a) EFTA-staterna och Rumänien är överens om att bestämmelserna i artikel 23 i protokoll B inte skall tillämpas förrän den 1 januari 1994. Detta uppskov kan förlängas av Gemensamma kommittén med beaktande av den praxis som tillämpas mellan Rumänien och Europeiska gemenskaperna.

b) Om det fastställs att en vara, som resultat av uppskovet i tillämpningen av artikel 23, importerats till en avtalslutande stats territorium i sådana ökade kvantiteter eller på sådana villkor som förorsakar eller hotar att förorsaka allvarlig skada för tillverkare av liknande eller direkt konkurrerande varor i den berörda avtalslutande staten, skall bestämmelserna i artikel 23 återinföras med avseende på denna vara.

c) Vad avser förfarandet för användning av skyddsåtgärderna skall bestämmelserna i artikel 25 i avtalet äga motsvarande tillämpning, särskilt punkterna 3 b och 6 i artikeln.

10. För att inte lägga hinder i vägen för införandet av effektiva ADB-system i tulladministrationen, är EFTA-staterna och Rumänien överens om följande tolkning av ordet "submission" i artiklarna 8 och 12 i avtalets protokoll B: I de fall då importdeklarationer överförs på elektronisk väg till tullmyndigheterna i den importerande staten, ankommer det på dessa myndigheter att inom ramen för och i enlighet med de bestämmelser i tullagstiftningen som är tillämpliga i importstaten, besluta när och i vilken utsträckning de dokument som utgör ursprungsbevis faktiskt skall avlämnas.

11. Med ett företag från EFTA-staterna och ett företag från Rumänien åsyftas i detta avtal ett bolag eller firma som etablerats i enlighet med lagarna i en EFTA-stat eller i Rumänien.

12. I detta avtal avses med ordet medborgare, i fallet Rumänien, en fysisk person som är rumänsk medborgare.

13. Vad avser tolkningen av artikel 19 punkt 3, är de avtalslutande parterna eniga om att uttrycket "högre intensitet" hänför sig till den stödnivå som tillkommit genom åtgärder enligt bilaga XII punkt c) och att användningen av normalt oförenliga åtgärder enligt d) kan vara temporärt berättigad till följd av omstruktureringen av Rumäniens ekonomi, förutsatt att sådana åtgärder är förenliga med reglerna om statsstöd i avtalet om upprättande av en association mellan Rumänien och Europeiska gemenskapen, så som de tillämpas av parterna i avtalet.

14. EFTA-staterna och Rumänien är överens om att samråda inom Gemensamma kommittén i syfte att överväga möjligheterna att komplettera de kriterier som uppställts i bilagorna XII och XIII till artikel 19 med de kriterier som följer av avtalet mellan EFTA-staterna och Europeiska ekonomiska gemenskapen om upprättandet av ett europeiskt ekonomiskt samarbetsområde efter att det avtalet trätt i kraft.

15. EFTA-staterna och Rumänien anser att ett skiljeförfarande skulle

kunna tillämpas vid tvister som inte kan biläggas genom samråd mellan de berörda avtalsslutande parterna eller i Gemensamma kommittén. En sådan möjlighet, exempelvis vad gäller artikel 18, kommer att närmare studeras i Gemensamma kommittén.

16. De avtalsslutande staterna skall göra nödvändiga ansträngningar för att avsluta ratifikationsprocessen för detta avtal om möjligt inom ett år.
